DWYER BROS' BAD LUCK.

Beath of Their Two-Year-Old Colt Kingfish

The early birds at Sheepshead Bay this morning were met with the announcement that the Dwyer Bros.' Kingfish had died during the night. It had been known for some kidney troubles, but it believed that the worst was over, and that he was on the mend. King-But cost the Dwyer Brothers \$2,225 at Dan Swigert's sale of yearlings in May, 1836. The colt was by Virgil (the sire of the famous Fremont), out of Kith, she by Australian, out of Kittie Clark, by Glencoe. Kingfish was not altogether a success last summer, although his gross earnings were \$31,640, or less the entrance money, which amounted to \$1,400, a net total of \$30,240, made up as follows: fish cost the Dwyer Brothers \$2,225 at Dan

Kingfish's greatest win was the Junior Champion Stakes at Monmouth, which was entirely due to the skill and judgment of his rider, Jimmy McLaughlin, who rode a magnificent race on that occasion.

Kingfish had a number of valuable engagements as a three-year-old next year, which include the Withers, Belmont and Jerome at Jerome Park, the Coney Island Derby and Tidal Stakes at Shcepshead Bay, the Lorillard, Omnibus, Stevens and Stockton stakes at Monmouth Park, and the Breckenridge and Dixie at Baltimore. The Dwyers have now a yearling half brother which they call Goldish, he being by Prince Charley out of Kith, for which they paid \$1,400 last May.

EDISON'S GREATEST.

What the Whard of Menle Park Has Done for the World and Wherein His Greatest Achlevement Lies.

No single man in the history of the world ever discovered so many things that contri-bute to the progress of civilization as Thomas A. Edison. The number is legion and their value inestimable. But out of the entire list only one is specially designed to help man physically. He who can relieve physical sufphysically. He who can relieve physical suffering, who can lighten pain, confers a greater blessing on the world than the one who simply adds to the world's wealth. That is just what Thomas A. Edison did when he discovered Polyform. He brought to light the means of bankshing all neuralgic, rheumatic or sciatic pains; of checking the first approach of mescular colds, of preventing nervous bendache or any nerve trouble; and of making men and women happier and longer lived. The accusts of the wonderful effects of Edison's Polyform would fill an entire paper and its menuse popularity is due whol'y to its absolute merit. It is sold by all draggists and dealers at one dollar per bottle. You cannot afford to be without it.
